

Cell & Gene

TECH EXPO

Tuesday-Thursday
August 12-14, 2025

Expanding Your Connections - The Cell and Gene Therapy Tech Expo is a dynamic virtual event designed for professionals in the field to discover the latest advancements and equipment critical to cell and gene therapy development. Attendees will explore state-of-the-art solutions in areas such as cell therapy equipment, featuring innovative bioreactor systems, cell sorting and isolation technologies, cryopreservation methods, and automated platforms for manufacturing scale-up.

The expo also delves into gene therapy technologies, including cutting-edge viral vector production systems, non-viral gene editing tools like electroporation and CRISPR, as well as advanced purification and quality control instruments. Additionally, the event addresses GMP and regulatory compliance, showcasing compliant equipment, data monitoring tools for environmental and batch reporting, and sterilization solutions that include cleanrooms and validation software.

This interactive platform offers an accessible and engaging environment, fostering learning, collaboration, and innovation for industry professionals seeking the latest solutions.

Sponsorship* Includes

- Online Presentation
10-15-minute presentation to share you equipment/technology offerings, including a pre-recorded video or live tour/demonstration providing visual representation of your facilities, equipment, locations, etc., and live Q&A.
- In-event Engagement Details
Attendee slide downloads and question submissions sent within one week of event.
- Pre- & Post-Event Marketing
Company name, logo, speaker headshot, company url, and/or presentation abstracts shared via marketing materials, registration page, social media, and event presentation platform.
- Polling Question
Engage attendees with one self-created pop-up polling question resulting in unique, personally identifiable responses. Question must be approved by our editor. After the event you will receive documentation of your responses as well as respondent contact information.
- Post-Event Registration List
Sent one-week after event, pre-show list not available.
- Post-Event Video Production
Post-event production cut of your company's presentation. Professionally packaged as a stand alone video content file that can be used at company's discretion.
- Special Edition Newsletter Inclusion
Inclusion of your presentation in a post-event special edition newsletter. These engagements will be passed along to you.
